

CORROSION

TECHNICAL BULLETINS

CONTENTS & OVERVIEW

TECHNICAL BULLETIN CTB-0

Rev 4, November 2003
This issue supersedes all previous issues

CTB-1 General Introduction

- What is "Corrosion"
- Types of metallic coatings
- Anodes and cathodes

CTB-2 Galvanic Protection

- The galvanic cell
- Galvanic series of metals and alloys in sea water

CTB-3 Zinc Coatings on Steel

- The reaction of zinc with atmospheric oxygen & moisture
- Why zinc protects steel

CTB-4 Coating Thickness

- The relationship between coating thickness and product performance

CTB-5 Corrosion Resistance of Zinc in Water

- The corrosion rate of zinc in natural fresh water
- The effect of both temperature and pH on the corrosion rate of zinc is explained

CTB-6 Aluminium/Zinc Coating on Steel

- Coating structure
- Corrosion performance of ZINCALUME® steel coating
- Galvanic protection of steel by ZINCALUME® steel coatings

CTB-7 Barrier Coatings

- Barrier Protection offered by COLORBOND® prepainted steel
- Brief description of how COLORBOND® steel is produced

CTB - 8**Building Applications**

- Material selection
- Design
- Unwashed areas
- End lapping and slip sheets
- Pitch transition flashing
- Low pitched roofing
- Expansion joints

CTB - 9**Contact with Unprotected Steel Supports**

- Why supporting steel structures for ZINCALUME® steel and COLORBOND® steel must be coated
- BlueScope Steel Limited recommendations for purlins in contact with BlueScope Steel products

CTB - 10**Roof Penetrations**

- The effect of copper ions on ZINCALUME® steel and COLORBOND® steel
- The pitfalls of roof penetrations

CTB - 11**Condensation**

- The condensation cycle in both temperate and tropical environments
- The correct installation of roof insulation

CTB - 12**Dissimilar Metals**

- The basis of dissimilar metal corrosion with reference to the galvanic series of metals and alloys in sea water
- Table of compatibility of direct contact between metals or alloys when choosing fasteners and accessories

CTB - 13**Contact with Timber**

- Green timber in contact with BlueScope Steel products
- Contact with CCA treated timber
- Fasteners and "Wet Timber"

CTB - 14**Exhaust from Wood and Oil Fire Burners**

- Fallout from boilers and heaters
- Flue Design
- Effects of inefficient combustion

CTB - 15**Acid Cleaning Brickwork**

- How BlueScope Steel products are damaged during brick cleaning
- BlueScope Steel recommendations to help avoid damage to ZINCALUME® steel and COLORBOND® steel

CTB - 16 Immersion

- What is “Immersion”
- Examples of immersion
 - Concrete
 - Soil
 - Water
 - Ponding

CTB - 17 Following Trades

- Possible damage to competently installed roofs by following trades
- Air-conditioning units
- Walkways
- Copper penetrations

CTB - 18 Painting Lead Flashing

- Why paint lead flashings
- Possible alternatives

CTB - 19 Roof Profile Closures

- Stop ending or bending up of the upper end of roof sheeting
- Metal stop ends
- Profiled closed cell foam filler strips

CTB - 20 Perforated Coated Steel

- Why BlueScope Steel **does not** supply perforated products

CTB - 21 Special Service Environments: Enclosed Swimming Pool Buildings

- Problems with design and maintenance of enclosed swimming pool buildings

CTB - 22 Special Service Environments: Intensive Animal Farming

- Intensive animal farms can be exceptionally corrosive environments
- Recommended products

CTB - 23 Concrete Decking

- Galvanized material and concrete decking
- Problem areas
- Poor detailing
- The bottom surface being an “unwashed area”
- Incorrect edge detailing

- Product Recommendation
- Purlin Specification and treatment
- Design hints
- End lapping of roof sheeting
- Warranty conditions

The information and advice contained in this Bulletin is of a general nature only, and has not been prepared with your specific needs in mind. You should always obtain specialist advice to ensure that the materials, approach and techniques referred to in this Bulletin meet your specific requirements.

BlueScope Steel Limited makes no warranty as to the accuracy, completeness or reliability of any estimates, opinions or other information contained in this Bulletin, and to the maximum extent permitted by law, BlueScope Steel Limited disclaims all liability and responsibility for any loss or damage, direct or indirect, which may be suffered by any person acting in reliance on anything contained in or omitted from this document.

ZINCALUME® and COLORBOND® are registered trade marks of BlueScope Steel Limited. BlueScope is a trade mark of BlueScope Steel Limited.

Please ensure you have the current Technical Bulletin as displayed at www.bluescopesteel.com.au
